

FRANCESCO DE GIOVANNI

LIST OF PUBLICATIONS

1. Alcuni omomorfismi tra reticoli di sottogruppi, *Rend. Accad. Sci. Fis. Mat. Napoli* 45 (1978), 437–441.
2. Alcuni epimorfismi tra reticoli di sottogruppi e reticoli di sottogruppi normali, *Rend. Mat.* (4) 13 (1980), 531–540 (with S. Franciosi).
3. Debole complementazione in teoria dei gruppi, *Ricerche Mat.* 30 (1981), 35–56 (with S. Franciosi).
4. Su una particolare classe di formazioni saturate, *Matematiche (Catania)* 34 (1979), 250–272 (with S. Franciosi).
5. Sui gruppi in cui l'intersezione di due qualunque sottogruppi non confrontabili è abeliana (Parte prima), *Rend. Istit. Mat. Univ. Trieste* 14 (1982), 49–70.
6. Sui gruppi in cui l'intersezione di due qualunque sottogruppi non confrontabili è abeliana (Parte seconda), *Rend. Istit. Mat. Univ. Trieste* 15 (1983), 1–18.
7. Sui gruppi con l'insieme ordinato dei sottogruppi ascendenti riducibile, *Istit. Veneto Sci. Lett. Arti Atti Cl. Sci. Mat. Natur.* 139 (1980/81), 199–202 (with S. Franciosi).
8. Sui gruppi sottomodulari infiniti, *Rend. Circ. Mat. Palermo* 31 (1982), 257–266 (with S. Franciosi).
9. Alcuni epimorfismi tra reticoli di sottogruppi normali, *Istit. Lombardo Accad. Sci. Lett. Rend.* 116 A (1982), 45–53 (with S. Franciosi).
10. Una caratterizzazione reticolare dei gruppi dei gruppi residualmente super-solubili, *Boll. Un. Mat. Ital.* (6) 2A (1983), 355–360 (with S. Franciosi).
11. Isomorfismi tra le strutture subnormali dei gruppi, *Ann. Mat. Pura Appl.* (4) 137 (1984), 123–138 (with S. Franciosi).
12. Groups in which every infinite subnormal subgroup is normal, *J. Algebra* 96 (1985), 566–580 (with S. Franciosi).
13. Alcuni isomorfismi duali tra reticoli di sottogruppi normali, *Boll. Un. Mat. Ital.* (6) 5A (1986), 185–192 (with S. Franciosi).
14. Sui gruppi nei quali ogni sottogruppo finito è dotato di complemento, *Matematiche (Catania)* 38 (1983), 201–220 (with S. Franciosi).
15. Su una classe di gruppi introdotta da Bender, *Ricerche Mat.* 33 (1984), 203–223 (with S. Franciosi).
16. Isomorfismi tra reticoli di sottogruppi normali di gruppi nilpotenti senza torsione, *Ann. Univ. Ferrara Sez. VII (Matematica)* 31 (1985), 91–98 (with S. Franciosi).
17. A note on cosubnormal subgroups, *Rend. Circ. Mat. Palermo* 35 (1986), 466–471 (with S. Franciosi).

18. Soluble groups with many Černikov quotients, *Atti Accad. Naz. Lincei Rend. Cl. Sci. Fis. Mat. Natur.* 79 (1985), 19–24 (with S. Franciosi).
19. Groups with infinite subnormal subgroups of bounded defect, *Boll. Un. Mat. Ital.* (6) 4D (1985), 49–56 (with S. Franciosi).
20. On torsion in groups whose automorphism groups have finite rank, *Rocky Mountain J. Math.* 17 (1987), 431–445 (with S. Franciosi and D.J.S. Robinson).
21. On torsion groups with nilpotent automorphism groups, *Comm. Algebra* 14 (1986), 1909–1935 (with S. Franciosi).
22. A note on groups with countable automorphism groups, *Arch. Math. (Basel)* 47 (1986), 12–16 (with S. Franciosi).
23. Some finiteness conditions for automorphism groups, *Glasgow Math. J.* 29 (1987), 259–265 (with S. Franciosi).
24. Some examples of infinite groups in which each element commutes with its endomorphic images, *Group Theory Proceedings (Bressanone 1986)*, Springer Lecture Notes in Mathematics 1281, 9–17 (with A. Caranti and S. Franciosi).
25. On normal subgroups of products of nilpotent groups, *J. Austral. Math. Soc. Ser. A* 44 (1988), 275–286 (with B. Amberg and S. Franciosi).
26. On automorphisms fixing normal subgroups of nilpotent groups, *Boll. Un. Mat. Ital.* (7) 1B (1987), 1161–1170 (with S. Franciosi).
27. Groups with a nilpotent triple factorisation, *Bull. Austral. Math. Soc.* 37 (1988), 69–79 (with B. Amberg and S. Franciosi).
28. Groups with a supersoluble triple factorization, *J. Algebra* 117 (1988), 136–148 (with B. Amberg and S. Franciosi).
29. Groups with an FC-nilpotent triple factorization, *Ricerche Mat.* 36 (1987), 103–114 (with B. Amberg and S. Franciosi).
30. On trifactorized soluble minimax groups, *Arch. Math. (Basel)* 51 (1988), 13–19 (with B. Amberg and S. Franciosi).
31. Soluble groups which are the product of a nilpotent and a polycyclic subgroup, *Proceedings of the 1987 Singapore Group Theory Conference*, 227–239 (with B. Amberg and S. Franciosi).
32. On automorphisms fixing subnormal subgroups of soluble groups, *Atti Accad. Naz. Lincei Rend. Cl. Sci. Fis. Mat. Natur.* (8) 82 (1988), 217–222 (with S. Franciosi).
33. Nilpotent-by-noetherian factorized groups, *Canad. Math. Bull.* 32 (1989), 391–403 (with B. Amberg and S. Franciosi).
34. Soluble groups with many nilpotent quotients, *Proc. Royal Irish Acad.* 89A (1989), 43–52 (with S. Franciosi).
35. On automorphisms fixing infinite subgroups of groups, *Arch. Math. (Basel)* 54 (1990), 4–13 (with M. Curzio and S. Franciosi).

36. Groups with polycyclic-by-finite conjugacy classes, *Boll. Un. Mat. Ital.* (7) 4B (1990), 35–55 (with S. Franciosi and M.J. Tomkinson).
37. Groups with Černikov conjugacy classes, *J. Austral. Math. Soc. Ser. A* 50 (1991), 1–14 (with S. Franciosi and M.J. Tomkinson).
38. Triply factorized groups, *Comm. Algebra* 18 (1990), 789–809 (with B. Amberg and S. Franciosi).
39. On the Wielandt subgroup of infinite soluble groups, *Glasgow Math. J.* 32 (1990), 121–125 (with R. Brandl and S. Franciosi).
40. On central automorphisms of finite-by-nilpotent groups, *Proc. Edinburgh Math. Soc.* 33 (1990), 191–201 (with S. Franciosi).
41. Groups with restrictions on their infinite normal subgroups, *Ricerche Mat.* 38 (1989), 151–163.
42. On products of locally polycyclic groups, *Arch. Math. (Basel)* 55 (1990), 417–421 (with S. Franciosi).
43. Soluble groups with many Min-by-Max quotients, *Boll. Un. Mat. Ital.* (7) 5B (1991), 449–462.
44. On the Fitting length of a soluble product of nilpotent groups, *Arch. Math. (Basel)* 57 (1991), 313–318 (with S. Franciosi, H. Heineken and M.L. Newell).
45. On normal subgroups of factorized groups, *Ricerche Mat.* 39 (1990), 159–167 (with S. Franciosi).
46. On trifactorized soluble groups of finite rank, *Geom. Dedicata* 38 (1991), 331–341 (with S. Franciosi).
47. Minimal non-nilpotent groups as automorphism groups, *Monatsh. Math.* 112 (1991), 89–98 (with R. Brandl and S. Franciosi).
48. Groups whose finite quotients have a transitive normality relation, *Boll. Un. Mat. Ital.* (7) 6B (1992), 329–350 (with S. Franciosi).
49. On the Hirsch–Plotkin radical of a factorized group, *Glasgow Math. J.* 34 (1992), 193–199 (with S. Franciosi).
50. Groups with many supersoluble subgroups, *Ricerche Mat.* 40 (1991), 321–333 (with S. Franciosi).
51. Rank formulae for factorized groups, *Ukrain. Mat. Z.* 43 (1991), 1078–1084 = *Ukrain. Math. J.* 43 (1991), 1012–1018 (with B. Amberg and S. Franciosi).
52. On groups with many subnormal subgroups, *Note Mat.* 13 (1993), 99–105 (with S. Franciosi).
53. Groups with dense normal subgroups, *Ricerche Mat.* 42 (1993), 283–305 (with S. Franciosi).
54. *Products of Groups*, Oxford Mathematical Monographs, Clarendon Press, Oxford, 1992 (with B. Amberg and S. Franciosi).
55. Prodotti di gruppi nilpotenti, *Rend. Sem. Mat. Fis. Milano* 61 (1991), 257–265.

56. On periodic subgroups of factorized groups, *Arch. Math. (Basel)* 61 (1993), 313–318 (with S. Franciosi).
57. On central automorphisms of infinite groups, *Comm. Algebra* 22 (1994), 2559–2578 (with S. Franciosi and M.L. Newell).
58. *Elementi di Algebra*, Aracne Editrice, Roma, 1992 (with S. Franciosi).
59. Groups with finitely many conjugacy classes of non-normal subgroups, *Proc. Royal Irish Acad.* 95A (1995), 17–27 (with R. Brandl and S. Franciosi).
60. Groups with finitely many infinite conjugacy classes of subnormal subgroups, *Ricerche Mat.* 43 (1994), 309–321 (with C. Casolo and S. Franciosi).
61. FC-nilpotent products of hypercentral groups, *Forum Math.* 7 (1995), 307–316 (with B. Amberg and S. Franciosi).
62. On groups with many almost normal subgroups, *Ann. Mat. Pura Appl.* 169 (1995), 35–65 (with S. Franciosi and L.A. Kurdachenko).
63. The Schur property and groups with uniform conjugacy classes, *J. Algebra* 174 (1995), 823–847 (with S. Franciosi and L.A. Kurdachenko).
64. *Esercizi di Algebra*, Aracne Editrice, Roma, 1993 (with S. Franciosi).
65. Groups whose subnormal non-normal subgroups have finite index, *Rend. Accad. Naz. Sci. XL Mem. Mat.* 17 (1993), 241–251 (with S. Franciosi).
66. On products of nilpotent groups, *Ricerche Mat.* 44 (1995), 489–506 (with S. Franciosi).
67. Groups satisfying the minimal condition on non-pronormal subgroups, *Boll. Un. Mat. Ital.* (7) 9A (1995), 185–194 (with G. Vincenzi).
68. On locally finite groups factorized by locally nilpotent subgroups, *J. Pure Appl. Algebra* 106 (1996), 45–56 (with S. Franciosi and Y.P. Sysak).
69. An extension of the Kegel-Wielandt theorem to locally finite groups, *Glasgow Math. J.* 38 (1996), 171–176 (with S. Franciosi and Y.P. Sysak).
70. On automorphisms fixing non-normal subgroups of groups, *Arch. Math. (Basel)* 65 (1995), 196–209 (with S. Franciosi and H. Heineken).
71. On maximal subgroups of minimax groups, *Atti Accad. Naz. Lincei Rend. Cl. Sci. Fis. Mat. Natur.* (9) 6 (1995), 23–27 (with S. Franciosi).
72. Groups satisfying the minimal condition on non-subnormal subgroups, *Proceedings of "Infinite Groups 1994"*, de Gruyter, Berlin (1995), 63–72 (with S. Franciosi).
73. Groups satisfying the minimal condition on certain non-normal subgroups, *Proceedings of "Groups - Korea 1994"*, de Gruyter, Berlin (1995), 107–118 (with S. Franciosi).
74. Groups with restrictions on infinite subnormal subgroups, *Rend. Circ. Mat. Palermo* 45 (1996), 256–266 (with S. Franciosi).
75. Frattini properties of groups with polycyclic-by-finite conjugacy classes, *Boll. Un. Mat. Ital.* (7) 10A (1996), 653–659 (with S. Franciosi).

76. Groups whose subnormal subgroups are normal-by-finite, *Comm. Algebra* 23 (1995), 5483–5497 (with S. Franciosi and M.L. Newell).
77. Groups with many normal-by-finite subgroups, *Proc. Amer. Math. Soc.* 125 (1997), 323–327 (with S. Franciosi).
78. Triple factorizations by locally supersoluble groups, *Siberian Mat. Ž.* 38 (1997), 439–449 = *Siberian Math. J.* 38 (1997), 380–388 (with S. Franciosi).
79. *Insiemi, Numeri, Polinomi: un'introduzione*, Aracne Editrice, Roma 1995 (with S. Franciosi).
80. On ascendant and subnormal subgroups of infinite factorized groups, *Ukrainian Mat. Ž.* 49 (1997), 842–848 (with S. Franciosi and Y.P. Sysak).
81. Groups whose proper quotients are FC-groups, *J. Algebra* 186 (1996), 544–577 (with S. Franciosi and L.A. Kurdachenko).
82. Groups with finite conjugacy classes of non-subnormal subgroups, *Arch. Math. (Basel)* 70 (1998), 169–181 (with S. Franciosi and L.A. Kurdachenko).
83. Groups with restrictions on non-subnormal subgroups, *Ricerche Mat.* 46 (1997), 307–320 (with S. Franciosi and L.A. Kurdachenko).
84. Groups with dense subnormal subgroups, *Rend. Sem. Mat. Univ. Padova* 101 (1999), 19–27 (with A. Russo).
85. Groups whose subgroups have small automizers, *Rend. Circ. Mat. Palermo* (2) 48 (1999), 13–22 (with R. Brandl and S. Franciosi).
86. On subnormal subgroups of factorized groups, *J. Algebra* 198 (1997), 469–480 (with S. Franciosi and Y.P. Sysak).
87. On ascendant subgroups of infinite groups, *Comm. Algebra* 26 (1998), 3313–3333 (with S. Franciosi and Y.P. Sysak).
88. On groups with many nearly maximal subgroups, *Atti Accad. Naz. Lincei Rend. Cl. Sci. Fis. Mat. Natur.* (9) 9 (1998), 19–23 (with S. Franciosi).
89. Groups without nearly abnormal subgroups, *Glasgow Math. J.* 41 (1999), 283–288 (with S. Franciosi).
90. Groups with many FC-subgroups, *J. Algebra* 218 (1999), 165–182 (with S. Franciosi and Y.P. Sysak).
91. Groups with many polycyclic-by-nilpotent subgroups, *Ricerche Mat.* 48 (1999), 361–378 (with S. Franciosi and Y.P. Sysak).
92. Groups with many subgroups having a transitive normality relation, *Bol. Soc. Brasil. Mat.* 31 (2000), 73–80 (with M. De Falco).
93. Groups with polycyclic non-normal subgroups, *Algebra Colloq.* 7 (2000), 33–42 (with S. Franciosi and M.L. Newell).
94. Pronormality in infinite groups, *Proc. Royal Irish Acad.* 100A (2000), 189–203 (with G. Vincenzi).

95. On groups with finite verbal conjugacy classes, *Houston J. Math.* 28 (2002), 683–689 (with S. Franciosi and P. Shumyatsky).
96. FC-groups and projectivities, *Atti Sem. Mat. Fis. Univ. Modena* 50 (2002), 7–15 (with C. Musella).
97. Gruppi ed automorfismi, *Boll. Un. Mat. Ital.* (8) 3B (2000), 273–286.
98. Homological methods in group theory, *SUNLAG 2000 - A Spring Stage on Algebra, Logic & Geometry* (Caserta, March 21–24, 2000), 7–19.
99. Groups with almost modular subgroup lattice, *J. Algebra* 243 (2001), 738–764 (with C. Musella and Y.P. Sysak).
100. Le dimostrazioni di teoremi fondate sull’uso di calcolatori, *Boll. Un. Mat. Ital.* (8) 2A (1999), 69–81 (with T. Landolfi).
101. Groups with nearly modular subgroup lattice, *Colloquium Math.* 88 (2001), 13–20 (with C. Musella).
102. Groups with many modular subgroups, *Ricerche Mat.* 50 (2001), 105–113 (with C. Musella).
103. On hypercentral subgroups of infinite groups, *Math. Slovaca* 52 (2002), 297–307 (with A. Russo).
104. Some topics in the theory of pronormal subgroups of groups, *Quaderni Mat.* 8 (2001), 175–202 (with G. Vincenzi).
105. Groups with decomposable set of quasinormal subgroups, *Serdica Math. J.* 27 (2001), 137–142 (with M. De Falco and C. Musella).
106. Groups whose non-subnormal subgroups have a transitive normality relation, *Bull. Brazil. Math. Soc.* 34 (2003), 219–229 (with A. Russo and G. Vincenzi).
107. Groups in which every subgroup is nearly permutable, *Forum Math.* 15 (2003), 665–677 (with M. De Falco, C. Musella and Y.P. Sysak).
108. Periodic groups with nearly modular subgroup lattice, *Illinois Math. J.* 47 (2003) 189–205 (with M. De Falco, C. Musella and Y.P. Sysak).
109. The infinite dihedral group as automorphism group, *Ricerche Mat.* 51 (2002), 337–339 (with A. Russo).
110. Groups with metamodular subgroup lattice, *Colloquium Math.* 95 (2003), 231–240 (with M. De Falco, C. Musella and R. Schmidt).
111. Groups in which every non-abelian subgroup is permutable, *Rend. Circ. Mat. Palermo* 52 (2003), 70–76 (with M. De Falco, C. Musella and R. Schmidt).
112. Groups with restricted conjugacy classes, *Serdica Math. J.* 28 (2002), 241–254 (with A. Russo and G. Vincenzi).
113. Groups in which every subgroup is permutable-by-finite, *Comm. Algebra* 32 (2004), 1007–1017 (with M. De Falco and C. Musella).
114. Pseudonormal subgroups of groups, *Ricerche Mat.* 52 (2003), 91–101 (with G. Vincenzi).

115. The maximal and the minimal conditions for normal subgroups of infinite order or index, *Comm. Algebra* 33 (2005), 183–199 (with D.H. Paek, D.J.S. Robinson and A. Russo).
116. Detecting the index of a subgroup in the subgroup lattice, *Proc. Amer. Math. Soc.* 133 (2005), 979–985 (with M. De Falco, C. Musella and R. Schmidt).
117. Groups with modular subgroup lattice, *Advances in Group Theory 2002*, 247–260 (with M. De Falco and C. Musella).
118. Groups in which every subgroup is modular-by-finite, *Bull. Austral. Math. Soc.* 69 (2004), 441–450 (with M. De Falco and C. Musella).
119. Groups with finitely many derived subgroups, *J. London Math. Soc.* 71 (2005), 658–668 (with D.J.S. Robinson).
120. The structure of groups whose subgroups are permutable-by-finite, *J. Austral. Math. Soc.* 81 (2006), 35–47 (with M. De Falco, C. Musella and Y.P. Sysak).
121. Groups satisfying the minimal condition on subnormal non-normal subgroups, *Algebra Colloq.* 13 (2006), 411–420 (with F. De Mari).
122. Groups satisfying the maximal condition on subnormal non-normal subgroups, *Colloquium Math.* 103 (2005), 85–98 (with F. De Mari).
123. Double chain conditions for infinite groups, *Ricerche Mat.* 54 (2005), 59–70 (with F. De Mari).
124. Noetherian automorphisms of groups, *Mediterranean J. Math.* 2 (2005), 125–135 (with F. De Mari).
125. A lattice characterization of groups with finite torsion-free rank, *Note Mat.* 26 (2006), 139–147 (with R. De Luca).
126. Groups with finitely many normalizers of non-abelian subgroups, *Ricerche Mat.* 55 (2006), 311–317 (with F. De Mari).
127. Groups with finitely many normalizers of infinite index, *JP J. Algebra Number Theory Appl.* 7 (2007), 83–95 (with F. De Mari).
128. Groups with finitely many derived subgroups of non-normal subgroups, *Arch. Math. (Basel)* 86 (2006), 310–316 (with F. De Mari).
129. Groups with finitely many normalizers of non-subnormal subgroups, *Matematiche (Catania)* 62 (2007), 3–13 (with F. De Mari).
130. Groups with finitely many normalizers of subnormal subgroups, *J. Algebra* 304 (2006), 382–396 (with F. De Mari).
131. Groups with finitely many normalizers of non-nilpotent subgroups, *Math. Proc. Royal Irish Acad.* 107A (2007), 143–152 (with F. De Mari).
132. Groups with few normalizer subgroups, *Bull. Irish Math. Soc.* 56 (2005), 103–113 (with F. De Mari).
133. Groups with few conjugacy classes of non-normal subgroups, *Math. Slovaca* 58 (2008), 177–184 (with M. De Falco and C. Musella).

134. Groups with all subgroups pronormal-by-finite, *Mediterranean J. Math.* 4 (2007), 65–71 (with A. Russo and G. Vincenzi).
135. Groups with normality conditions for non-abelian subgroups, *J. Algebra* 315 (2007), 665–682 (with M. De Falco, C. Musella and Y.P. Sysak).
136. Groups with finitely many normalizers of subgroups with intransitive normality relation, *Pure Math. Appl.* 18 (2007), 257–264 (with F. De Mari).
137. Groups with few non-normal subgroups, *Proceedings of "Ischia Group Theory 2006"*, 33–45 (with M. De Falco and C. Musella).
138. Groups in which every subgroup is almost pronormal, *Note Mat.* 28 (2008), 95–103 (with A. Russo and G. Vincenzi).
139. Groups with finitely many normalizers of non-polycyclic subgroups, *Algebra Colloq.* 17 (2010), 203–210 (with M. De Falco and C. Musella).
140. Groups whose non-normal subgroups have small commutator subgroup, *Algebra Discrete Math.* (2007), 46–58 (with M. De Falco and C. Musella).
141. The Schur property for subgroup lattices of groups, *Arch. Math. (Basel)* 91 (2008), 97–105 (with M. De Falco and C. Musella).
142. Locally finite products of totally permutable nilpotent groups, *Algebra Colloq.* 16 (2009), 535–540 (with M. De Falco and C. Musella).
143. Groups whose finite homomorphic images are metahamiltonian, *Comm. Algebra* 37 (2009), 2468–2476 (with M. De Falco and C. Musella).
144. A note on groups with finitely many maximal normalizers, *Asian European J. Math.* 1 (2008), 347–352 (with M. De Falco and C. Musella).
145. Groups with large centralizer subgroups, *Note Mat.* 29 (2009), 21–28 (with M. De Falco and C. Musella).
146. Groups with many self-normalizing subgroups, *Algebra Discrete Math.* (2009), 55–65 (with M. De Falco and C. Musella).
147. On the upper central series of infinite groups, *Proc. Amer. Math. Soc.* 139 (2011), 385–389 (with M. De Falco, C. Musella and Y.P. Sysak).
148. Groups with finitely many normalizers of non-periodic subgroups, *Rend. Circ. Mat. Palermo* 59 (2010), 289–294 (with M. De Falco and C. Musella).
149. Alcuni aspetti dei gruppi con classi di coniugio finite, *Quaderni di Matematica dell'Università di Lecce* 2 (2010) (with F. Catino).
150. Indagine Matmedia 2009 - L'indagine 2009: commenti e riflessioni, *Period. Mat.* 2 (2010), 65–69 (with A. Russo).
151. Groups with finiteness conditions on commutators, *Algebra Colloq.* 19 (2012), 1197–1204 (with M. De Falco and C. Musella).
152. Groups with normality conditions for non-periodic subgroups, *Boll. Un. Mat. Ital.* 4 (2011), 109–121 (with M. De Falco and C. Musella).
153. Groups with many abelian subgroups, *J. Algebra* 347 (2011), 83–95 (with M. De Falco, C. Musella and Y.P. Sysak).

154. Strongly inertial groups, *Comm. Algebra* 41 (2013), 2213–2227 (with M. De Falco, C. Musella and N. Trabelsi).
155. The Schur property for infinite groups, Proceedings of the “Meeting on Group Theory and its applications on the occasion of Javier Otal’s 60th birthday”, *Biblioteca de la Revista Matemática Iberoamericana* (2012), 57–73 (with M. De Falco and C. Musella).
156. Products of locally supersoluble groups, *Note Mat.* 32 (2012), 5–11 (with A. Auletta).
157. Infinite groups with many generalized normal subgroups, *International J. Group Theory* 1 (n.3) (2012), 39–49 (with C. Rainone).
